Oklahoma Strong Families Resource Book

Chloe Kliewer, Knee Scholar
Dr. Ken Wedel, Editor

Description: The Knee Center is currently working on an electronic document which will serve as a one-stop resource for information on topics relating to Oklahoma families. There are many valuable statistics, resources and publications which provide data about families in Oklahoma. However, sifting through this information can be time-consuming and confusing. This publication categorizes and provides links to state and federal sources, local nonprofits, national foundations and more, which provide data and information specific to Oklahoma. The document will be updated periodically as electronic information and sources change and are updated.
