Strengthening Families: A Delphi Study in Oklahoma - 2010

Dr. Kenneth Wedel, Principle Investigator
Kathleen Romero, Knee Scholar
Jessica Crowder, Knee Scholar

Description: The Knee Center conducted a Delphi study from 2009-2010 to assess the strengths and weaknesses of Oklahoma families, threats they face, and means to strengthen family life in our state. This information, gathered from key informants throughout the state, will be used to influence future policy and service programs that affect Oklahoma families.

Read our recently published article by former Knee Scholars, Kathleen Romero and Jessica Crowder, and Director of the Knee Center, Ken Wedel: Practitioners' Views of Family Strengths: A Delphi Study.
